   3.3. Login Info 5
   3.4. Online List 6

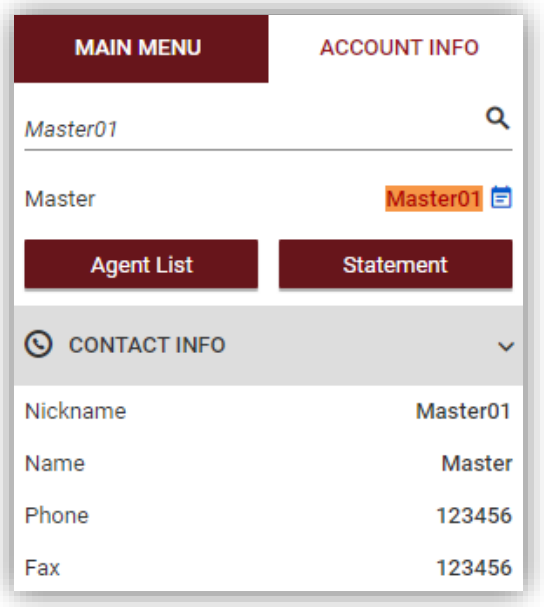

In general, Account Info assists Super to search for and manage member information and settings (Position Taking, Bet Setting, Commission, etc.).

1. Search Account

As the title says, this function assists Super to search for downline accounts only, and it is the first required step in Account Info function.

Enter an account and click 🔍 button to display the target account details:

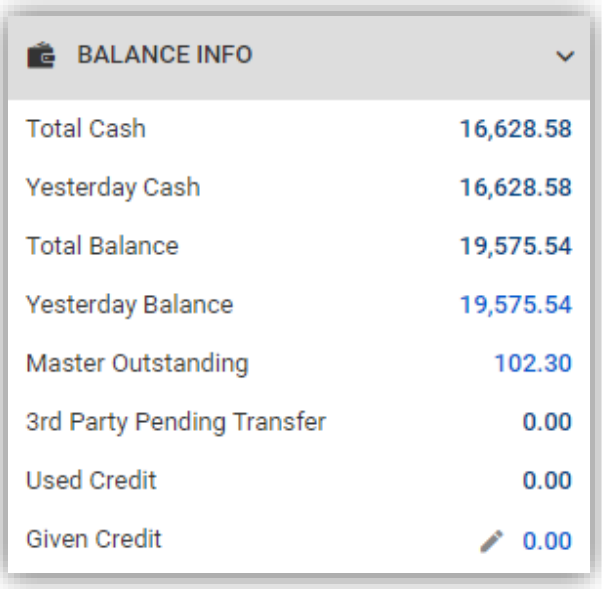

- Click the downline name to view their logs. If the account is closed/locked, the downline name will be highlighted in:
  - **Purple**: closed by Admin.
  - **Orange**: directly or *indirectly closed** by uplines.
  - **Dark grey**: closed by inactivity.
  - **Blue**: locked by the system due to incorrect security code or OTP.
  - **Grey**: locked by the system due to incorrect password.

  **Indirectly closed* means a downline that is closed because his/her upline gets closed.
- **Statement**: view the Statement report of the target account.

- **Agent List**: view the target account's downline list.
- **Downline List**: view the target account's downline list sorted by status (Active/Closed/Suspended).

2. Balance Info

Balance Info section provides Super with the information related to balance, outstanding, credit, and can proceed with the transfer function of the target account.

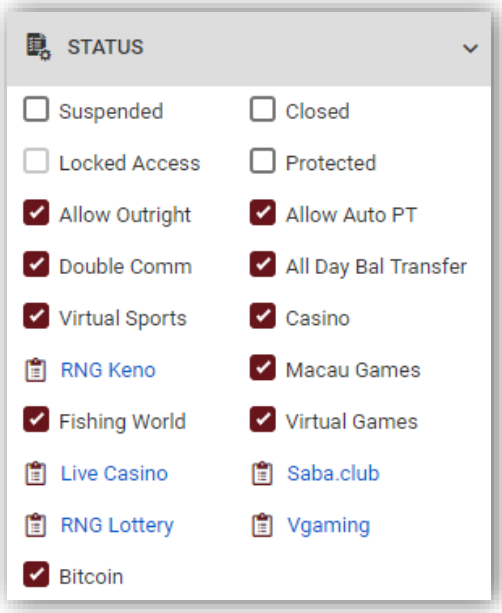

- **Total Cash:** total downline's revenue calculated until today.
- **Yesterday Cash:** total downline's revenue calculated until yesterday.
- **Total Balance**: the total amount which downline pays/receives from his/her upline based on the win/loss payment calculated until now.
- **Yesterday Balance**: the total amount which downline pays/receives from his/her upline based on the win/loss payment calculated until yesterday.
- **Master Outstanding**: Master's position taking on running tickets.
- **3rd Party Pending Transfer**: the amount of balance transferred to the 3rd party wallet.
- **Used Credit:** the credit amount that the Master has given to his/her downlines.
- **Given Credit**: betting amount given when this account was created. Click to adjust the given credit amount of the target member.

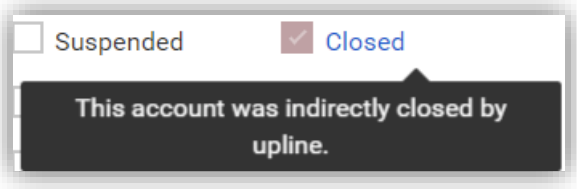

3. Status – Setting – Login – Online List

3.1. Status

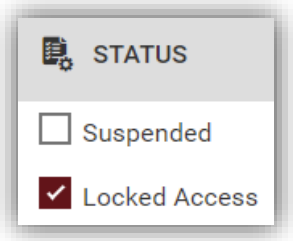

This section gives Super a quick look at account overall settings and allows him/her to change those values (account status, or enable/disable betting products/bet types).

- If an account is indirectly closed by upline, you will see the following message when hovered on Closed Status:

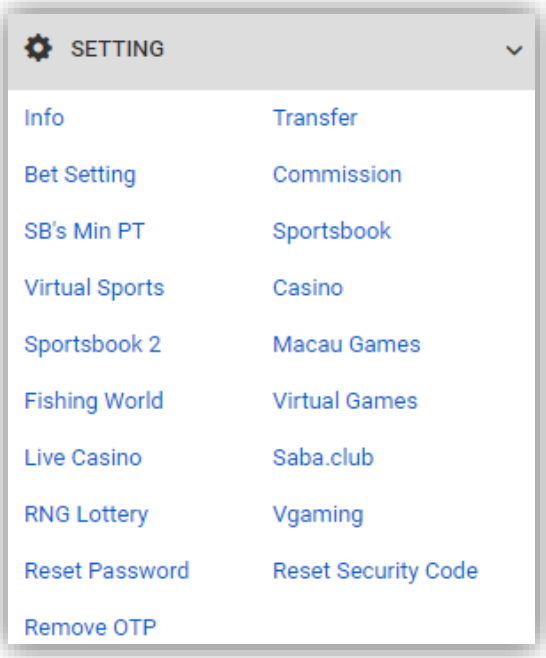

- If an account is locked, the Locked Access checkbox will be ticked:

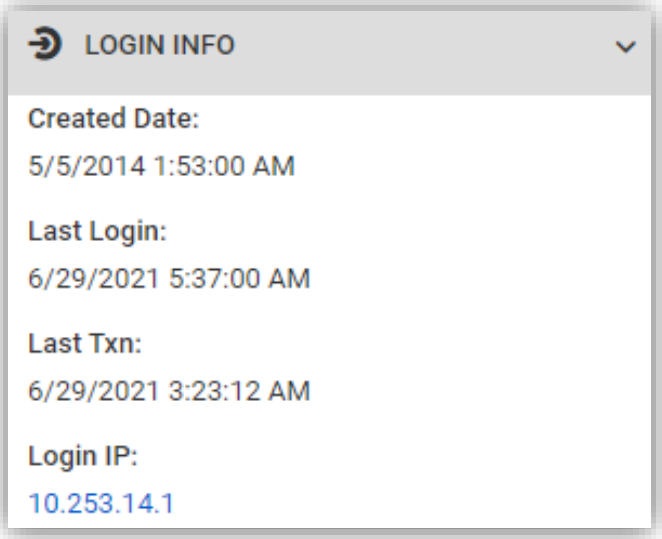

3.2. Setting

This section separates the account info and settings into small options, which gives Super fast access to edit each option such as member information (general info, reset password) or his/her settings (Commission, Bet Setting, Min Bet, Max Bet, etc.) on each product (Sportsbook, Casino, Virtual Sports, etc.).

3.3. Login Info

Login section displays the created date, last login, last transaction time, and the IP address from that last login of the target account.

3.4. Online List

Online List section declares whether the target account is online. If the account is online, it will show the IP address and Login time. Otherwise, “This user is not online” message will be displayed.
