CRICKET GUIDELINE

1. Introduction

Cricket betting has seen significant growth since the emergence of dedicated sports channels and bookmakers. Match Winner is the most basic cricket bet that involves betting on the winner of a match.

In our system, we configure Match Winner's settings with the same settings as Sportsbook − Other Sports. Besides that, we also offer the feature "Net Position" to Match Winner for enabling members to place more bets. We will explain more details about Net Position in the next section.

2. Net Position

2.1. Definition

Net Position is the minimum payout that a member could get from his/her tickets bet on Match Winner of each match.

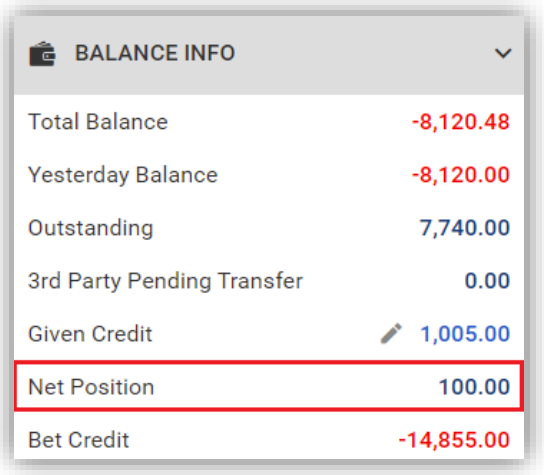

- If the payout is greater than the total actual stake, the Net Position is the total actual stake.

Actual Stake = Stake deducted in the balance.

- This amount is added into member's Bet Credit to enable the member to play more bets.
- After the match is settled, Net Position of the match will be cleared and the actual winning/losing amount will be added to member balance.

2.2. Location

Net Position amount is displayed in Balance Info at member level only.

2.3. Examples

Example 1: Total Payout Home Wins > Total Stake > Total Payout Away Wins

On bet type Match Winner, member A has placed a stake of $100 for Home team with Malay odds - 0.94. The possible outcome of this ticket will be:

Bet Ticket					Possible Payout	
#	Bet type	Bet team	Stake	Odds	Home Wins	Away Wins
1	Match Winner	Home	100	1.94	194	0
	Total		100		194	0

According to the table above:

– If Home team wins => Payout Home Wins = $194

– If Away team wins => Payout Away Wins = 0

– Total Actual Stake = $100

=> Net Position = 0

Member Balance Info will be displayed as below:

Member Balance Info	
Given Credit	300
Outstanding	100
Net Position	0
Bet Credit	200

Example 2: Total Payout Away Wins > Total Stake > Total Payout Home Wins

On bet type Match Winner, member A has placed 2 tickets:

– Ticket 1 placed on Home team with stake $100 and odds 1.8.

– Ticket 2 placed on Away team with stake $100 and odds 2.02.

The possible outcome of these tickets will be:

Bet Tickets					Possible Outcome	
#	**Bet type**	**Bet team**	**Stake**	**Odds**	**Home Wins**	**Away Wins**
1	Match Winner	Home	100	1.8	180	0
2	Match Winner	Away	100	2.02	0	202
	Total		200		180	202

- **Ticket 1 is bet on Home Team**
  - If Home team wins => Payout Home Wins = $180
  - If Away team wins => Payout Away Wins = 0

- **Ticket 2 is bet on Away team**
  - If Home team wins => Payout Home Wins = 0
  - If Away team wins => Payout Away Wins = $202
- In total
  - Total Payout Home Wins = $180
  - Total Payout Away Wins = $202
  - Total Actual Stake = $200

  } => Net Position = $180
- Member Balance Info will be displayed as below:

Member Balance Info	
Given Credit	300
Outstanding	200
Net Position	180
Bet Credit	280

Note: *The Net Position amount has been added into member's Bet Credit already.*

Bet Credit = Given Credit – Outstanding + Net Position

Example 3: Total Payout Away Wins > Total Payout Home Wins > Total Stake

On bet type Match Winner, member A has placed 2 tickets:

- Ticket 1 placed on Home team with stake $100 and odds 2.1.
- Ticket 2 placed on Away team with stake $100 and odds 2.3.

The possible outcome of these tickets will be:

Bet Tickets					Possible Outcome	
#	Bet type	Bet team	Stake	Odds	Home Wins	Away Wins
1	Match Winner	Home	100	2.1	210	0
2	Match Winner	Away	100	2.3	0	230
	Total		200		210	230

- **Ticket 1 is bet on Home Team**
  - If Home team wins => Payout Home Wins = $210
  - If Away teams wins => Payout Away Wins = 0
- **Ticket 2 is bet on Away team**
  - If Home team wins => Payout Home Wins = 0
  - If Away teams wins => Payout Away Wins = $230
- In total
  - Total Payout Home Wins = $210
  - Total Payout Away Wins = $230
  - Total Actual Stake = $200

  } => Net Position = $200
